Property at Various Points in the South
and West—The Earthquake Predicted—
Scientific Observations—The Loss at
Charleston by Fire and Earthquake Over
\$5,000,000—The City Completely Isolated.

NEW YORK, September 1.—Since the earth-
quake shock there has been no telegraphic
communication with Charleston, S. C., from
any point in the country. The telegraph au-
thorities have been unable to get press dis-
patches or other communications from there.
This circumstance occasions great concern.
That sections of the country actuated to have
been the center of the disturbance, Savannah,
Ga., reports that the shock was the severest
ever felt in that locality. It is known that
a bridge in the vicinity of Char-
leston was shaken from its foundations,
and the wires all lost, but it is not so serious
as the fact that various other points through-
out the country are unable to get anything from
the city.

September 1, 2:15 a. m.—Up to 2 a. m. there
had been no communication from Charleston.
The bridge that is fallen carried the telegraph
wires into the city. A report has been re-
ceived from a point twenty-five miles from
the city that the railroad tracks leading from there
to Charleston have been submerged.

The point from which the railroad leading
into Charleston is reported submerged, is Rav-
enna, on the Savannah and Charleston Rail-
road, about eighteen miles distant from the
city. It is probable that the part of the track
under water has been covered by a heavy rise
in the river.

Telegrams from cities in South Carolina and
Georgia say that the utmost consternation
prevails on account of the non-receipt of news
from Charleston, and many fear that a terrible
calamity has happened there.

AND LOSS OF LIFE AND PROPERTY.
The Western Union agent at Richmond, Va.,
telegraphs the manager of the New York office
saying: "Our man at Charleston, S. C., de-
moralized. All his force has deserted him but
one man. He says big loss of life and prop-
erty. An trying to get a bulletin of something
tangible. Will send it to you."

CHARLESTON ALL RIGHT.
The Western Union Telegraph
Company have just secured communication
with Charleston, S. C. A single wire has been
obtained and over it is learned the fact that
the city is all right. The cause of the ob-
struction to the wires has not yet been learned.

SEVERAL LIVES LOST.
WASHINGTON, September 1, 10:35 a. m.—The
Southern Telegraph Company reports that it
has succeeded in reopening communication
with Charleston, S. C. The operator in that
city says that the earthquake shock there last
night was very severe. Several lives were lost
and a number of persons were injured.

THE DESTRUCTION AT CHARLESTON.
RICHMOND, Va., September 1, 10:45 a. m.—A
dispatch just received here says: "The streets
of Charleston are blocked by fallen build-
ings, telegraph poles and tangled wires. Over
sixty persons were killed or wounded. After
the earthquake, fires broke out in different
parts of the city, but they are not now spread-
ing. The population spent the night in the
streets and vacant lots. There is so much con-
fusion that it is hard to get at the facts."

SIXTY PERSONS KILLED AND WOUNDED.
CHARLESTON, S. C., September 1, 11 a. m.—An
earthquake such as has never before been
known in the history of this city swept over
Charleston last night, shortly after 10 o'clock,
causing more loss and injury to property and
far more loss of life than the cyclone of a year
ago. The city is wrecked, the streets are
encumbered with masses of fallen build-
ings and tangled telegraph and telephone
wires, and up to an early hour
it was almost impossible to pass from one part
of the city to another. The first shock was
by far the most severe. Most of the people
with their families passed the night in the
streets, which even this morning are crowded
with people, afraid to re-enter their homes.
More than sixty persons were killed and
wounded, chiefly colored. Among the whites
killed and fatally injured are:

J. LINC.
DE. R. ALEXANDER HAMMOND.
ANSLEY ROBINSON.

Fires broke out in different parts of the city
immediately after the earthquake, and some
are still burning but no danger of spreading.
There is no way of leaving the city at present.

MILD DAM SUBST.
12:45 p. m.—The following dispatches have
been received by the Western Union Tele-
graph Company:

THE RUIN IN CHARLESTON.
There is a terrible earthquake shock last night
at 9:30. The principal business portion of the
city was destroyed and hundreds of persons
were rendered homeless. Men were
frantic, women were beseeching mercy from
the Almighty, and children were in tears.
The main station, house, the City Hall, Huber-
man Hall, and many other well-known build-
ings, including St. Michael's Church,
were irreparably damaged. Many people were
seriously if not fatally injured. Broad street
presented a spectacle of the utmost horror.
Even women, armed with hatchets, fought
valiantly to rescue the imprisoned unfortun-
ates. Meeting street, from Broad to Hazel,
is a wreck and is lined with unfortun-
ates. For miles the city is a scene of
scene many fires broke out and were not
nearly fought by the Fire Department. The
night was hideous with the groans of the
dying, the screams of the wounded and
the wailing of the unfortunates. It is impos-
sible to estimate the losses of person or property
at present. Up to 10 a. m. to-day there had been
ten distinct shocks.

THE CITY A COMPLETE WRECK.
It is at 8:25 precisely this morning an-
other wave swept over the city, coming as the
others did, from the southeast and going in a
northwest direction. By that time the
people who had been out on the public
streets and open places all night had ventur-
ed into their houses to get clothing and some-
thing to eat. The approach of the quake was
heralded by the usual rumbling sound re-
sembling distant thunder. Then it gradu-
ally approached, the earth quivered and
quivered and quivered in three seconds
it had passed, the sound dying out in the dis-
tance. This is the only wave felt since 2:30
this morning. It was not destructive, all the
destruction having been done at 9:35 last
night. The city is a complete
wreck. St. Michael's Church, and
St. Philip's Church, two of the
most historic churches in the city, are in ruins,
as also the Huberman Hall, the police station
and many other public buildings. Fully two-
thirds of the residences in the city are unin-
habitable—wrecked either totally or partially.

ABOUT ONE HUNDRED PERSONS KILLED.
It is impossible at this time to give a correct
estimate of the number of persons killed and
wounded. It is estimated that between fifty
and one hundred persons have been killed
and several hundred wounded. At the time of
the first shock fires broke out
in five different parts of
the city. About twenty houses were
destroyed by fire; scarcely 100 houses in the
city are occupied at this time. The people
are all encamped in the open places. All the
stores are closed and scarcity of provisions
is feared, not from want of provisions, but be-
cause no one can be got to reach the stores to
sell them.

THE CITY WRAPPED IN GLOOM.
The city is wrapped in gloom, and business
suspended. People generally remain in the
streets in order to understand the condition of
the city, and will camp out to-night, fearing another
shock. The gas-works are injured and probably
the city will be without light to-night. St.
Michael's Church is shattered and the steeple
has fallen down; likewise the steeple of St.
Philip's. The steeple of the Unitarian
Church has fallen. The portico of
Huberman Hall and the main station-house
are demolished. There is much injury to
houses in the city. The school building, the
portico of the Ravens mansion is down. Hardly
a house in the city escaped injury,
and many are so shaken and
cracked that a hard blow would bring
them to the ground. The shock was
severe at Summerville, and Mt. Pleasant
and Sullivan's Island, but no loss of life is re-
ported there. Flashes in the earth are noticed
from which a fine sand, apparently from a
great depth, exudes. A sulphurous smell is
very noticeable.

FIRE AMONG THE DEBRIS.
Three or four fires started with the first
shock and the city was illuminated
with flames, thus leading all to believe
that what was left by the earthquake would be de-
stroyed by fire. However, the Fire Depart-
ment was so well divided and handled that the
fires were under control by daylight. From
fifteen to twenty residences and stores were
consumed.

THE LOSS \$5,000,000.
The loss by fire and earthquake cannot be
accurately estimated, but can be placed safely
at \$5,000,000. As far as can be ascertained
during the night from fifteen to twenty
were killed and a much greater number
wounded in all sorts of ways. The loss of
human life will be large and it will take
days to get at the accurate number.
Shocks equally as severe were felt at a dis-
tance of thirty-five miles and have done in-
estimable damage to railroad and telegraph
property. Charleston is now entirely isolated
from the outside world.

LAXITY, S. C., September 1.—The shock
burst the mill dams here, and some
thousand feet of railroad track
was destroyed. Telegraph wires
were also destroyed. No trains are running.
The Western Union agent here reports that
from Summerville to restore communi-
cation. Great damage is reported at
Summerville. The railroad is badly
broken on both sides of Branchville.

COLOMBIA, S. C., September 1.—At 9:48 last
night this city was visited by a terrible earth-
quake. The first two shocks were fearful.
Buildings swayed from side to side and the
earth rose and fell like the waves of the ocean.
People rushed from their homes into the
streets. Some sprang from the windows and
were injured. The experience of those in
buildings at the time of the first
shock was that of being rocked in a ship
at sea. Many of the most substantial build-
ings were shaken to their foundations, and
the

WALLS CRACKED AND SPRUNG.
Five minutes after the first shock the second
came, and ten minutes later a third. Other
shocks followed until 1:30 a. m., when the
sixth shock was felt, and this one lasted for
a minute and a half. At 4 o'clock this morning
the seventh shock came at 9:30 and at 10:30 the city
was again made to tremble. Very little sleep
had by any of the inhabitants of Columbia
last night. The negroes thought the end
of the world had come, and they held prayer-
meetings on the corners.

THE EARTH CAVED IN.
LAVENEX, S. C., September 1.—The railroad
under water in some places between here
and Charleston, twenty-five miles north of
here, and the earth has caved in several
places.

A RELIEF TRAIN.
SAVANNAH, GA., September 1, 12 noon.—A
relief train has been dispatched to Charleston,
from this city, to render assistance to the
sufferers and to repair the railroad.

Reports Not Exaggerated.
WASHINGTON, D. C., September 1.—The city
is wild with excitement over the catastrophe

been received by the Western Union Tele-
graph Company:

THE RUIN IN CHARLESTON.
There is a terrible earthquake shock last night
at 9:30. The principal business portion of the
city was destroyed and hundreds of persons
were rendered homeless. Men were

was again made to tremble. Very little sleep
had by any of the inhabitants of Columbia
last night. The negroes thought the end
of the world had come, and they held prayer-
meetings on the corners.

THE EARTH CAVED IN.
LAVENEX, S. C., September 1.—The railroad
under water in some places between here
and Charleston, twenty-five miles north of
here, and the earth has caved in several
places.

A RELIEF TRAIN.
SAVANNAH, GA., September 1, 12 noon.—A
relief train has been dispatched to Charleston,
from this city, to render assistance to the
sufferers and to repair the railroad.

Reports Not Exaggerated.
WASHINGTON, D. C., September 1.—The city
is wild with excitement over the catastrophe

at Charleston, S. C., created by the
earthquake last night. Controller of the
Currency, Tremblin, whose family
is at Charleston, says he has no doubt but
there is great damage and the loss of life, he
thinks, is not being exaggerated. He is in
receipt of private dispatches which cor-
roborate the press dispatches.

GEORGIA.
Augusta Badly Shaken—Great Damage to
Dwellings and Railroad Property.

NEW YORK, September 1.—A dispatch just
received from Savannah, says: Late news ex-
tremes prevail there. The people are all
up and many are in the streets. Another
slight shock was felt at 1:30 a. m., and there
is fear of a renewal of the disturbance.
There was no communication with Charleston
at 4:30.

TERROR IN SAVANNAH.
SAVANNAH, GA., September 1, 4 a. m.—Three
distinct shocks have been felt here since mid-
night. The last occurred at 3:40 a. m. All the
shocks were short and not violent. The people
are still greatly excited and sitting out in
the streets and squares or crowding
around the telegraph and news-
paper offices. No word can be
obtained from Charleston. The general
impression is that that city has suffered seri-
ously. It is supposed that the cable under
Ashley river is broken. At Tybee Island, the
mouth of the Savannah river, at
lenses in the lighthouse were destroyed.
The people on the island telephoned to
the city that they are in a state of terror.
The people on the island rushed from their
homes to the beach. The oscillation lasted
for several minutes. The lantern lenses in
the light-house were broken, and the
machinery of the lamp was disarranged. The
keeper hurried up the tower, and as soon as
possible arranged a temporary light,
which will have to answer until
the light-house supply reaches here. The
people on the beach ran hither and thither,
not knowing where to go, and fearing that
another tidal wave would rush over
them. The water was agitated
and the waves rose high on the
beach. The houses on the beach swayed to
and fro, and shook as if they would fall
backward. A telephone message to the News,
from the Tybee station at 4 o'clock this
morning, stated that the people were all
gathered on the beach.

MANY HOUSES IN DANGER.
Augusta, Ga., September 1.—Two shocks of
quake were felt this morning at 7:30 and 9:30
city time. The excitement has somewhat
subsided. A number of houses have been re-
ported to the fire-wardens as in danger.
The section from the city to the sea-
shore and surrounding neighborhood come reports
of small damage by the shocks, such as the
falling of chimneys, parting of walls, smash-
ing of crockery, etc. In the railway
depot at La Grange, Ga., a passenger train
was wrecked. The engine and four cars
were derailed. The fireman was killed.
Another South Carolina railroad train
is in the ditch at Horse Creek, four miles from
the city, and the horses killed. The latter is
a stock train and is now completely under
water. The stock has escaped with the ex-
ception of four horses. The shocks broke the
dams at Langley and Bath, S. C., and the rail-
road tracks are washed away.

STUCKEN SUMMERSVILLE.
J. H. Averill, Master of Transportation of
the South Carolina Railroad Company, tele-
graphs from Summerville that many persons
have been killed and hundreds are homeless.
The whole business portion of the city is badly
wrecked.

NEARLY DESTROYED.
COLUMBIA, S. C., September 1.—Summerville,
twenty-two miles from Charleston,
was nearly destroyed by the earth-
quake last night. The passenger train
from this place to Charleston was
thrown from the track near Summerville last
night, and the engine and fireman were
killed. The passengers on the wrecked train
and those on a morning's train, including
the telegraph company's messengers, have not
reached Charleston.

Florida.
JACKSONVILLE, Fla., September 1.—The
earthquake shock last night was quite severe
here, and was felt as far south as Baitow. It
commenced at 9:27, and lasted about
thirty seconds.

AT THE NATIONAL CAPITAL.
Three Distinct Shocks Felt—Furniture and
Clocks Moved.

WASHINGTON, D. C., September 1.—Three
shocks of earthquake were felt here at 10
o'clock last night, but were not perceptible in
all parts of the city. Accounts differ as to its
duration. W. H. Barton, who was passing
south past the city, said the Post-
Dispatch representative that it lasted about
fifty-five seconds, the first shock forty sec-
onds, the second nine, and the third six. In
the Western Union and the Baltimore & Ohio
telegraph operating rooms it was very per-
ceptible, and in some newspaper offices
desks were moved and ink bottles thrown
to the floor. In the Post-Dispatch
office a chair was upset and the clock on the
mantel was turned half around. A gentleman
who was reclining on a sofa was thrown into
the middle of the floor. There are no reports
of any damage having been done.

OHIO.

LODGE NOTICES.

MERCANTILE LODGE, No. 331 A. O. U. E. Chapter 101, St. Louis, Mo. Meets every Wednesday evening at 8 o'clock at the hall of the lodge, 1012 N. 1st St. C. G. BALKEN, Recorder.

SITUATIONS WANTED-MALES.

Bookkeepers.

WANTED-By a good, steady, practical book-keeper, with 10 years' experience, a position in a mercantile establishment. Address H. B. 33, this office.

Clerks and Salesmen.

WANTED-Situation by a first-class pharmacist, a ref., and rec. furnished, in a drug store. Address H. B. 33, this office.

The Trades.
